

**LEGAL NOTICE  
PUBLIC HEARING**

A second public hearing will be held at the Orem City Council Chambers on May 10, 2016 at 6:00 p.m. to receive comments regarding the Statement of Community Development Objectives and Projected Use of Funds for the Community Development Block Grant (CDBG) for FY 2016-2017.

The CDBG program is designed to assist communities in efforts to improve living conditions primarily for low- and moderate-income (Imi) residents by creating suitable living environments, decent housing opportunities, and economic opportunities. To achieve these goals, each project and program must meet at least one of these national objectives established by the United States Department of Housing and Urban Development (HUD). Activities must either benefit Imi persons in a given census tract or block group, including assistance through economic development, improve designated areas of slum and blight, or address an urgent community need.

The City of Orem has approved programs and projects which address the primary objective of benefit to Imi persons through the following objectives:

1. Improve the quality of life for families by funding projects which address the needs of Imi households.
2. Stabilizing older residential neighborhoods and decreasing the amount of substandard housing through housing rehabilitation and eliminating or improving slum and/or urban blight which have deteriorated through neglect for the benefit of Imi persons.
3. Encourage and pursue the establishment of commerce and industry which will provide quality employment for the unemployed and underemployed thereby benefitting Imi persons.
4. Removal of architectural barriers citywide.

In accordance with the above stated objectives, each proposal will meet one of the stated national objectives and will be an eligible activity as described in regulations published in the Friday, Sept. 23, 1983 and Wednesday, Oct. 31, 1984, editions of the Federal Register. The City of Orem intends to meet the requirement of 70 percent benefit to Imi persons in the CDBG program years through 2016-2017. Projects and programs outlined for 2016-2017 each meet the national objective to benefit at least 51 percent Imi persons.

The 2016-2017 CDBG entitlement is \$608,636 plus revenues of approximately \$15,000. There is also an estimated \$185,000 of resources that will be reprogrammed. The total amount for allocation in FY 2016-2017 is \$808,636 and the proposed uses of this funding are as follows:
